Recreating History

Norwood Products offers the opportunity to recreate history with its traditional post and rail fences crafted from redgum.

The range of fences includes one, two or three rails which can be used in conjunction with wires.

Used simply as an attractive feature or for good stock control, these fences also make excellent horse yards and hitching rails.

Easy to Install

The fences are available in kit form and are easy to install. The posts are pre-morticed to suit your special requirements.

uture"

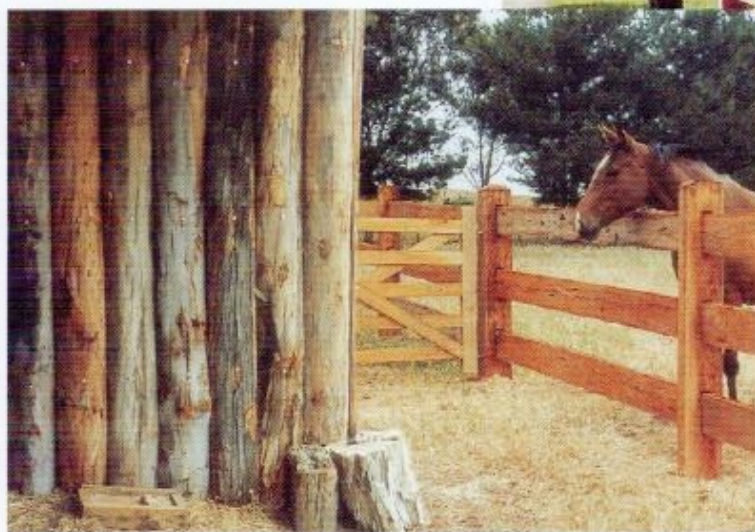

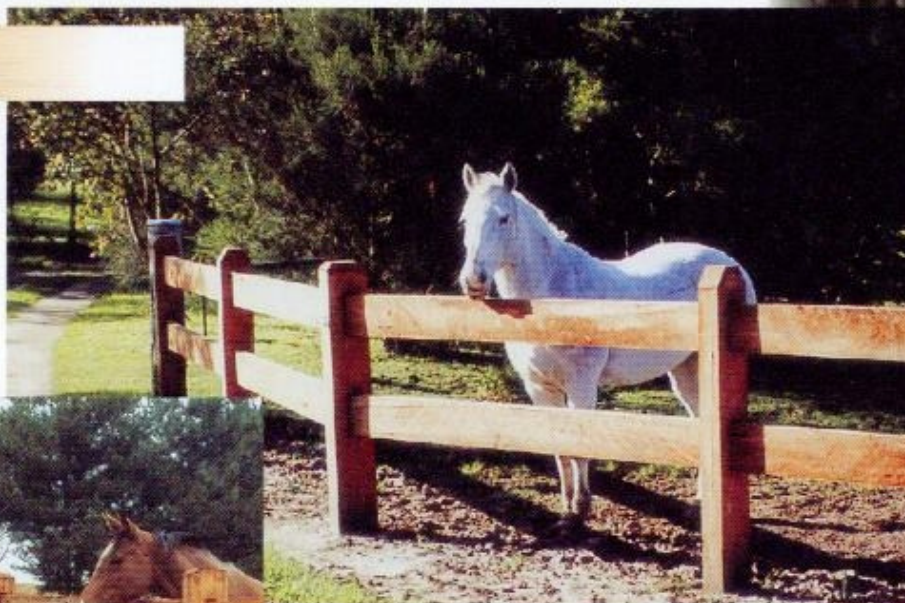

Sturdy Stock Protection

As well as looking good, our fences make excellent stock enclosures – safe, strong and long lasting. Ideal for stud farms where stock safety is of prime importance.

Various Timbers

While normally supplied in red gum our products are also available in cypress or treated pine

Stable cladding

Norwood products can supply pre-cut timber to specified sizes for a variety of stable or barn cladding purposes.

Something Different

We can also supply timber rails or beams for many unusual projects. Posts can be drilled up to 75mm diameter to suit pipes, chains, ropes or cables.

Gates

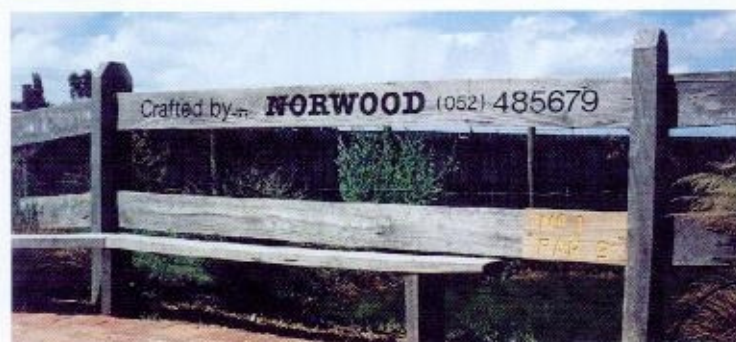

Norwood Products has a range of gates to complete your fencing requirements including –

Hardwood 5 rail,
English style oregon,
Cast jointed powder coated.

Other products

Parking Barriers,
Park benches & tables,
Routed signage.
